

Behavioral Health - Listening Tour 2.0

The Louisiana Department of Health’s Office of Behavioral Health will be holding a series of regional meetings, called Listening Tour 2.0. These meetings will allow an opportunity for community members, families, stakeholders and providers to share their ideas and concerns about the behavioral health system. Follow-up will also be provided to the concerns voiced by the community and providers during the previous statewide tour.

Listening Tour 2.0 will consist of separate sessions for the community and for providers. All meetings are open to the public. RSVP/registration is not required for attendance. For more information, email ldhlistens@la.gov.
