

**Louisiana Department of Health and Hospitals
Informational Bulletin 16-11
May 20, 2016**

**Issue: Billing and Ordering Guidance for Long Acting Reversible Contraceptives (LARCs):
Intrauterine Devices (IUD) and Implants**

Purpose:

This bulletin provides billing and ordering information for IUDs and Implants and includes information for each of the five Health Plans in an effort to have a 1-page document in order to simplify the various billing and ordering processes for providers. The ultimate goal is to remove barriers for women to access the most effective reversible contraceptives: intrauterine devices and implants (Centers for Disease Control).

Background:

Inpatient Postpartum LARC Insertion: Effective June 20, 2014, Louisiana Medicaid added coverage of intrauterine devices and implants, in addition to a hospital's per diem payment for women newly postpartum, prior to discharge. The payment for LARC is equal to the fee on the Durable Medical Equipment fee schedule.

LARCs Reimbursement Rate: Effective Fall 2014 reimbursement rates for intrauterine devices and implants were increased to the current wholesale acquisition cost and the rate is adjusted each Jan. 1 to the current wholesale acquisition cost.

See page two for billing and ordering guide.

Long Acting Reversible Contraception (LARC): Billing & Ordering Guide

No prior authorization required by any Health Plan

J7297 Liletta \$625.00 NDC: 52544003554 (Facilities approved for 340B pricing for Liletta can bill \$50)
J7298 Mirena \$810.51 NDC: 50419042301
J7300 Paragard \$739.00 NDC: 51285020401
J7301 Skyla \$650.32 NDC: 50419042201
J7307 Nexplanon \$771.52 NDC: 00052433001 (68 mg etonogestrel, 15 mg barium sulfate, 0.1 mg magnesium stearate) or
 NDC: 00052027401 (68 mg etonogestrel, 15 mg of barium sulfate)

11981 Insertion, non-biodegradable drug delivery implant **11982** Removal, non-biodegradable drug delivery implant
