

Team Surgery

Reimbursement Policy ID: RPC.0046.2100

Recent review date: 06/2023

Next review date: 01/2025

AmeriHealth Caritas Louisiana reimbursement policies and their resulting edits are based on guidelines from established industry sources, such as the Centers for Medicare and Medicaid Services (CMS), the American Medical Association (AMA), state and federal regulatory agencies, and medical specialty professional societies. Reimbursement policies are intended as a general reference and do not constitute a contract or other guarantee of payment. AmeriHealth Caritas Louisiana may use reasonable discretion in interpreting and applying its policies to services provided in a particular case and may modify its policies at any time.

In making claim payment determinations, the health plan also uses coding terminology and methodologies based on accepted industry standards, including but not limited to Current Procedural Terminology (CPT®), the Healthcare Common Procedure Coding System (HCPCS), and the International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM). Other factors that may affect payment include but are not limited to medical record documentation, legislative or regulatory mandates, a provider's contract, a member's eligibility in receiving covered services, submission of clean claims, and other policies. These factors may supplement, modify, or in some cases supersede reimbursement policies.

This reimbursement policy applies to all healthcare services billed on CMS-1500 forms or its electronic equivalent and, when specified, billed on UB-04 forms or its electronic equivalent.

Policy Overview

The policy outlines AmeriHealth Caritas Louisiana's reimbursement guidelines for Team Surgery. Select complex surgical procedures require collaboration by three or more physicians with diverse areas of expertise, functioning as a surgical team. AmeriHealth Caritas Louisiana's claim reimbursement logic aligns with the Centers for Medicare and Medicaid Services' (CMS) Professional Fee Schedule (PFS) for Team Surgery.

Exceptions

N/A

Reimbursement Guidelines

Select complex surgical procedures require collaboration by three (3) or more physicians, each with a different specialty, functioning as a surgical team. For appropriate reimbursement, Team Surgery is reported by individual providers with modifier 66 appended to the same procedure code.

Consistent with the Centers for Medicare and Medicaid Services' (CMS) Professional Fee Schedule (PFS), all codes in the CMS PFS with Team Surgery status code indicators "1" or "2" are considered by AmeriHealth Caritas Louisiana to be eligible for reimbursement. Appropriate reimbursement for Team Surgery requires each team surgeon to report the same CPT® code(s) with Modifier 66 appended to procedures performed under the Team Surgery concept.

Definitions

Team Surgery – Modifier 66

Under some circumstances, highly complex procedures (requiring the concomitant services of several physicians or other qualified health care professionals, often of different specialties, plus other highly skilled, specially trained personnel, and various types of complex equipment) are carried out under the "surgical team" concept.
